

Province 1

Dr .Suresh Mehata

Key Achievement and Innovation if any

- Two dedicated COVID hospital.
- 3 PCR testing Laboratory.
- Plan to start Pool testing with capacity of 1000 test /day
- 26 cases are discharged until now with full recovery. All discharged cases are being followed up and doing well.
- CICT team are formed by majority of the Palikas. Palika are supported to strengthen their capacity.
- Plan to open new isolation hospital for asymptomatic/less symptomatic patients.
- Well established reporting system from Palika to MoSD
- Regular meeting with hospitals, health offices. Also established health and nutrition cluster and regular cluster coordination meeting
- Mapping of essential services started and committed to ensure essential health services

Key Asks

- Availability of PCR test kits in a satisfactory capacity.
- Availability of commodities like PPE and others even for non-COVID dedicated hospitals, protection of HRH should be high priority
- Early and complete assessment of quarantine sites to minimize quarantine site transmission of COVID 19.
- Plan for proper management of the returnees.
- Assessment of COVID dedicated hospital and enhance the capacity of COVID hospitals in terms of Critical care and human resource.
- Foreseeing the increase in no of cases, no of COVID dedicated hospitals with dedicated human resources should be increased.
- Need to increase testing capacity
- As the no. of cases are increasing there should be clear guideline for management of asymptomatic cases
