- Total no of RDT test is 6328(Female:5206,Male:1122).

NEEDS

- Ensure contact tracing based on case investigation and fill forms accordingly.
- Protective logistics: Commodities like PPE, gagals, face-shield, shoe-cover, sanitizer
- Laboratory logistics: PCR reagent, VTM with swab stick, RDT kits.
- Strengthening ambulance network and commodities transport mechanism.
- Ensure adequate patient to staff ratio in COVID dedicated hospitals.

WAY FORWARD

Issues	Actions to be done	Responsible Authorities
Insufficient commodities supply	Prompt supply of commodities like PPE, googles, mask,face shield	MoHP/MD/LMD
PCR testing issues	Increasing PCR testing Capacity for active case detection	NPHL
Stigma	Psychological support and stigma prevention for all positive cases as well as discharged cases.	
Awareness program	Continue involvement of social media to disseminate the importance of social distancing and hand washing to prevent further transmission of the infection
